

CONSULTING TO EMPOWER THE RELIABILITY PROFESSIONAL

Total life cycle support and expert resources

on demand for the reliability engineering professionalSM

The ReliaSoft Consulting Services (RCS) team draws from the expertise of a core group of both academic and industry experts to provide "best-of-breed" consulting and instructional services in the areas of quality and reliability engineering. The RCS team is composed of recognized experts in their respective fields, each with years of individual experience. In order to provide the highest possible level of service, RCS consultants also have unique access to ReliaSoft's internal R&D resources, knowledge bases and software tools.

RCS consultants provide expertise in a variety of areas, including:

- ◆ Complete Reliability Program Development
- ◆ Educational Courses in Reliability and Quality Engineering
- ◆ Test and Experiment Design Data Analysis
- ◆ Developing, Evaluating and Communicating Reliability Requirements
- ◆ Equipment Reliability, Maintainability and Availability Assessment
- ◆ Theoretical Development
- ◆ Other specific analysis projects based on your organization's particular needs

To discuss your specific project requirements, please contact the ReliaSoft office nearest you.
