

**EXPERT SUPPORT FOR ALL TYPES
OF FMEA AND FMECASM**

Xfmea facilitates Failure Mode and Effects Analysis (FMEA) and Failure Modes, Effects and Criticality Analysis (FMECA) and provides flexible data management and reporting capabilities.

- **Supports the major industry standards, such as SAE J1739, AIAG FMEA-3 and MIL-STD-1629A, for all types of FMEA/FMECA.**
- **Provides extensive capabilities to customize the interface and reports.**
- **Supports Risk Priority Numbers (RPNs) and Criticality Analysis for risk assessment.**
- **Provides a complete set of print-ready reports generated in Microsoft Word or Excel, a variety of pareto (bar), pie and matrix charts and a flexible query utility.**
- **Allows multiple users to work cooperatively on the analysis and provides numerous ways to leverage the lessons learned from previous analyses, including copy/paste, import/export, etc.**
- **And much more...**
